

# Field Clinical Engagement Lead

Location: Remote

## Summary of Position

A Field Clinical Engagement Lead is a representative of Curium responsible for developing and maintaining relationships with clinical study sites. These responsibilities will generally fall into the following categories but will also include compliant activities needed to facilitate the successful completion of any Curium clinical trial.

## Essential Functions

### **Study Site Activation**

- Working with and traveling to enrolled study sites to ensure site activation in an appropriate time frame, allowing for site participation in clinical trials.
- Communicating progress and obstacles efficiently within the clinical team.
- Developing and leveraging relationships with key personnel to ensure timely completion of enrollment activities and tracking of activity progress.

### **Study Site Engagement and Patient enrollment**

- Identify and build relationships with key personnel at active sites to ensure effective enrollment of patients into appropriate Curium studies.
- Drive awareness with appropriate site personnel, including referring physician and staff, of study design, protocols and requirements.
- Travel to study sites to review trial status and assist in overcoming obstacles.
- Provide resource and support for patient recruitment to appropriate individuals at clinical studies sites.
- Keep accurate records of interactions and progress for each site. Populate a tracking document and share this information with appropriate Curium team members.
- Communicate effectively on study site progress with broader clinical team.

### **Identification of potential new study sites**

- Understand the requirements for current and upcoming Curium studies and work to identify potential qualified study sites.
- Keep accurate records of site capabilities.
- Communicate potential site qualifications to broader clinical team as required.

### **Corporate awareness**

- Attend national and local conference to drive awareness of active or future Curium clinical trials.
- Travels as needed to attend relevant medical meetings to drive awareness of Curium clinical trials.

## Requirements

- Bachelor Degree or international equivalent is required.
- Minimum of 8 years of experience working in the life sciences industry.
- Minimum of 5 years of experience in a customer facing role in the life science industry.
- Track record of driving results by influencing the actions of your accounts.

- Demonstrated ability to work independently and communicate effectively with both internal and external customers.
- Experience gaining access to health care providers within large accounts or systems.
- Strong written and verbal skills
- Experience communicating with site staff including KOLs.
- Valid driver's license

**Working Conditions**

- Frequent local and regional travel in assigned geography
- Travel required up to 50% of the time, during busy period.
- Air travel and overnight travel is required
